# 1. Qualification Profile

## Aims of the programme

The aims of the International Management (Full-Time) programme leading to an MBA degree are multifaceted and geared towards individuals with non-business backgrounds, offering them the opportunity to cultivate international management competencies based on their existing professional experiences. The programme's primary objectives include:

1. **Equipping students with comprehensive international management skills:** The programme aims to provide students with a robust foundation in international management, covering various aspects such as strategy, finance, marketing, operations, and leadership. This holistic approach ensures that graduates are well-prepared to navigate the complexities of managing in a global context.
2. **Preparing graduates for management roles in internationally active companies or organisations:** Through a combination of theoretical learning and practical application, the programme prepares graduates to take on leadership positions in companies with a global presence or international organisations. By fostering a deep understanding of global business dynamics, graduates are equipped to contribute effectively to the success of their organisations on a global scale.

Upon completion of the programme, graduates are expected to demonstrate the following competencies:

- **Integration of academic knowledge and professional experience:** Graduates will possess the ability to leverage both theoretical concepts and real-world experiences to address challenges and opportunities in the field of international management.
- **Analytical skills in dynamic global environments:** Graduates will be adept at analysing complex problems within the ever-changing landscape of the global economy. They will be capable of developing and evaluating alternative solutions and making informed, goal-oriented decisions that drive organisational success.
- **Entrepreneurial mindset and responsible decision-making:** The programme aims to instill in graduates an entrepreneurial spirit, enabling them to think creatively, take calculated risks, and identify opportunities for innovation and growth. Moreover, graduates will be equipped with the skills to make and implement responsible decisions aligned with organizational objectives, while also considering the broader social and cultural implications of their actions.

By achieving these aims, the International Management (Full-Time) programme prepares graduates to thrive in diverse, multicultural business environments and make meaningful contributions to the global marketplace.

## Degree awarded

Master of Business Administration (MBA)

## Duration of studies

3 semesters/ 18 months

### Competency goals (CGs) according to AACSB

The overall competency goals and objectives of ESB degree programmes have evolved from the ESB Business School **mission** and are subject to continuous quality assurance processes.

*‘Within an educational environment that is truly international, we develop leaders who shape global business practice and society responsibly.’*

Derived from this target, ESB Business School is committed to achieving distinct learning outcomes in individual programmes. The quality of teaching and learning is measured along these outcomes. The programme goals are rendered in English and follow the international quality standards of AACSB (Association to Advance Collegiate Schools of Business). On the basis of assessment results, curricular improvements may be deemed necessary and thus implemented to help improve learning and teaching within the degree programme in line with the educational mission of ESB Business School.

**Table 1: Competency goals MBA Full-Time**

LANGUAGE PROFICIENCY	INTERCULTURAL COMPETENCE	ETHICAL DECISION-MAKING	PROBLEM-SOLVING COMPETENCE	EFFECTIVE LEADERSHIP	DIGITAL SKILLS
COMPETENCY GOAL 1	COMPETENCY GOAL 2	COMPETENCY GOAL 3	COMPETENCY GOAL 4	COMPETENCY GOAL 5	COMPETENCY GOAL 6
<b>ESB MBA Full-Time graduates</b> are proficient in at least one foreign language and communicate in spoken and written word at C1 proficiency level (admission requirement).	...are interculturally competent.	...are able to manage complex, ethical and legal issues expertly in their professional field and in wider, environmental contexts.	... are experts at solving complex problems in the domain of international management.	...are able to demonstrate capabilities and an overall aptitude for effective leadership.	...have the ability to assess and develop digital business strategies.
Measure embedded in admission requirements	Measure embedded in M4.2 ‘Managing Across Cultures’ by way of self-reflective exercises and IES online test	Measure embedded in M5 ‘Legal Frameworks of Management’ by way of presentation and class discussion	Measure embedded in MT ‘Master Thesis’	Measure embedded in M4.1 ‘Leading People and Change’ by way of an individual, reflective term paper	Measure embedded in M3.2 ‘Business Strategy’ by way of case study and presentation

### Qualification profile of graduates

Graduates of ESB's MBA full-time programme are informed about relevant tools and skills and apply the competencies needed by managers to prepare, evaluate and take management decisions. They have learned to measure the performance of business and have developed skills to face international challenges of a highly competitive, globalised economy. Furthermore, graduates show a deepened understanding of integrated, responsible, company management and the ability to lead professionally in international business. By studying in international teams and building on international professional experience, they gain advanced communication and intercultural competencies.

The programme prepares for careers in all industries and various international organisations, acting as a springboard for entrepreneurial potential.

MBA Full-Time graduates generally pursue careers in the fields of:

- Marketing and Sales (Digital)
- Management and Leadership
- Finance
- Production and Operations
- Consultancy
- IT and Digital Systems
- Research and Development
- Purchasing and Procurement
- Human Resource Management
- Logistics and Distribution
- Entrepreneurship/ Start-Up Ventures

## 2. Study Structure

The standard duration of the Master of Business Administration (MBA) is three semesters (18 months) and admission to the course is yearly, every October (winter semester). The degree programme comprises two on-campus study semesters and a final semester comprised of a company placement and Enterprise Project report and a master's thesis.

### Core programme

The core modules take place from October to mid-February and consist of six core focus areas;

- Accounting and Corporate Finance,
- Marketing and Supply Chain Management,
- Business Strategy and Economics,
- Leadership and Management across Cultures,
- Legal Frameworks of Management and
- German/ Business Language.

Together, these management subjects address the key challenges for future leaders in business and society and cover the key dimensions of international management.

### Specialisation subjects and courses

In the second semester, MBA students continue to develop their German language proficiency and will also be given guidance and instruction in academic writing and business research methods to help them prepare for their MBA Enterprise Project report and thesis.

The specialisation courses are scheduled from March to mid-July. Students will choose four of ten possible elective subjects, carefully selected from relevant and contemporary management issues and taught by ESB professors or industry experts in this particular field.

Focus areas of the elective courses are:

- Management, Strategy and Digitalisation
- Marketing and Sales
- Sustainability, Diversity and Change

### Enterprise Project and Thesis

The programme includes a mandatory company project/placement (Enterprise Project) at a company of choice, capping off the MBA by writing a thesis of choice, either with the respective company or independently.

The Enterprise Project is completed in a company, entailing a company project or by an individual case-based project. The project covers 420 study hours (3 months) in general, from October to December and will be concluded by a project report.

In the in-company project, students apply their acquired knowledge to real-world business challenges, developing their MBA and professional skills in a company of choice that could range from start-ups to multi-national enterprises including any of ESB's 50 corporate partners. Alumni and faculty members can also be helpful in finding a project. The organisation may even be located outside of Germany.

The master's thesis will ideally be finalised within 3 months (December-February).

The medium of instruction for all courses is English.

## 4. Modules and Courses

*Please note, deviations from listed teaching, examination and assessment formats are possible. There are no specific admission requirements for the modules, with the exception of the enterprise project and thesis, which require the successful completion of 24 credits. The modules are not transferable to other degree programmes.*

### 4.1. Business in Numbers: Accounting and Finance

Module	M1
Semester	1
Duration of module	1 semester
Type of module	Core
Courses included in the module	<ul style="list-style-type: none"> <li>• Fundamentals of Accounting</li> <li>• Fundamentals of Corporate Finance</li> </ul>
How frequently is the module offered	Annually in winter semester
Admission requirements	None
Level	Master/ MBA
Responsible professor/module coordinator	Prof. Dr. Michel Charifzadeh <a href="mailto:michel.charifzadeh@reutlingen-university.de">michel.charifzadeh@reutlingen-university.de</a>
Name(s) of lecturer(s)	Prof. Dr. Michel Charifzadeh <a href="mailto:michel.charifzadeh@reutlingen-university.de">michel.charifzadeh@reutlingen-university.de</a> Prof. Dr. Sebastian Bunnenberg <a href="mailto:sebastian.bunnenberg@reutlingen-university.de">sebastian.bunnenberg@reutlingen-university.de</a>
Credits (ECTS)	6/90
Total workload and breakdown	180 hours (60 hours lecture time, 120 hours independent study)
Learning outcomes of the module	<p>Upon completing the Accounting and Finance module, students will have developed a set of professional competencies essential for navigating the complex landscape of business decision-making. Key outcomes include:</p> <p><b>Professional competencies</b> A foundational understanding of financial statements will be attained</p>

	<p>(Financial Statement Literacy), enabling students to interpret and utilize them effectively for operational decision-making. Students will be equipped to assess the suitability of various accounting and financial techniques, as well as instruments, adapting them to diverse situations within companies. The module will instill an awareness of the financial impact of core business issues on corporate operations and emphasize the importance of social responsibility in decision-making processes.</p> <p><b>Methodological competencies</b> The module will provide students with methodological competencies necessary for effective financial analysis and decision-making. Students will develop practical accounting skills, enabling them to navigate financial statements and apply this knowledge to make informed operational decisions. The module will introduce a range of financial techniques and instruments, allowing students to evaluate their applicability in different business situations. A fundamental understanding of key terms in business management and the acquisition of financial skills relevant to trade negotiations will be achieved.</p> <p><b>Social competencies</b> The module will foster social competencies crucial for engaging effectively in the business environment. Students will enhance their ability to communicate financial information effectively, facilitating collaboration and understanding among diverse stakeholders. The module will emphasize the importance of ethical considerations in financial decision-making, promoting socially responsible practices within the business realm. Opportunities for collaborative learning will be integrated into the module, encouraging students to work together in analysing and solving complex financial problems.</p> <p><b>Personal competencies</b> Students will develop critical thinking skills, enabling them to approach financial challenges with a strategic mindset and make sound decisions in the face of uncertainty. Exposure to diverse business scenarios will cultivate adaptability, empowering students to apply their financial knowledge in a variety of professional contexts. The module will encourage self-reflection, prompting students to evaluate their own decision-making processes and continually refine their financial acumen.</p>
Examination/type of assessment	2 hour written exam KL(2)
Weighting of grade within programme	6/66

## 4.2. Managing Demand and Supply

Module	M2
Semester	1
Duration of module	1 semester
Type of module	Core
Courses included in the module	<ul style="list-style-type: none"> <li>Marketing Management</li> <li>Supply Chain Management</li> </ul>
How frequently is the module offered	Annually in winter semester
Admission requirements	None
Level	Master/ MBA
Responsible professor/module coordinator	Prof. Dr. Stephan Höfer <a href="mailto:stephan.hoefer@reutlingen-university.de">stephan.hoefer@reutlingen-university.de</a>

Name(s) of lecturer(s)	Prof. Dr. Stephan Höfer <a href="mailto:stephan.hoefer@reutlingen-university.de">stephan.hoefer@reutlingen-university.de</a> Prof. Dr. Philipp Wunderlich <a href="mailto:philipp.wunderlich@reutlingen-university.de">philipp.wunderlich@reutlingen-university.de</a>
Credits (ECTS)	6/90
Total workload and breakdown	180 hours (60 hours lecture time, 120 hours independent study)
Learning outcomes of the module	The module provides students with the strategic and operative marketing management tools to manage products and enter new markets. Students will acquire knowledge about complex international supply chains. The aim is that they are able to understand and to evaluate the wide spectrum of challenges in procurement, production and distribution of goods and services.
Examination/type of assessment	PA+KL(1)
Weighting of grade within programme	6/66

#### 4.2.1. Marketing Management

Course	M2.1
Type of course	Core
Name of lecturer	<a href="mailto:philipp.wunderlich@reutlingen-university.de">Prof. Dr. Philipp Wunderlich</a> <a href="mailto:philipp.wunderlich@reutlingen-university.de">philipp.wunderlich@reutlingen-university.de</a>
Contact hours per week	2 hours
Learning outcomes	The course provides students with the strategic and operative marketing management tools to manage products and enter new markets. In particular, the students will acquire the following competencies: <b>Subject-specific competencies</b> <ul style="list-style-type: none"> <li>• the basics of marketing and marketing philosophy</li> <li>• the basics of b2b marketing and digital marketing</li> <li>• consumer/customer behaviour</li> <li>• different types of marketing strategies</li> <li>• understanding of how the strategic process is being managed</li> </ul>

- be able to identify and handle competitive advantages in a highly competitive business environment
- be aware of marketing instruments and apply them in a strategic process
- manage a strategic process in marketing
- develop an operative approach in marketing in order to transfer strategy into market relevant practical measures

#### **Professional competencies**

- practical use of tools being used in marketing strategies
- become familiar with digital marketing tools such as e-procurement
- understand digital marketing success factors
- become familiar with and be able to use and apply strategic management models and tools to analyse and solve problems in a competitive environment
- formulate and assess international marketing strategies and demonstrate this by solving business case studies
- understand the impact of cultural, administrative, geographic and economic distance on strategic marketing management decisions
- demonstrate insight of the processes of strategic marketing management and corresponding disciplines like R&D, controlling and production management
- align marketing strategies with corporate objectives and translate these into operational measures
- develop a holistic view on marketing management decisions and impact on functional decision-making (corporate/ business segment strategy vs. functional strategies)

#### **Social skills, key competencies**

- develop critical thinking and reflection skills
- analyse and segment markets
- identify and find target groups
- develop target group-oriented strategies
- develop and assess communication strategies
- develop social skills through case study group work – coordination of tasks, working with different cultures and time management

#### **Personal competencies**

- take responsibility for and structure their own learning
- analyse and structure the complex set of information provided by case studies, identify key pieces of relevant information and key success factors and apply structuring and analytical methods and techniques to complex problems
- develop complex problems and penetrate complex multi-layered facts of a case under time pressure

	<ul style="list-style-type: none"> <li>develop presentation skills through working out complex facts of a case and potential solutions and structuring analysis and implementation in an easy-to-digest way using the structure of existing management tools.</li> </ul>
<p>Course-specific contributions to AoL competency goals (CG 2-6)</p>	<ul style="list-style-type: none"> <li>CG 2 introduced: Students reflect upon intercultural aspects when making decisions in a global business environment. They work in international teams, reflecting the respective homeland conventions in consumption and business in general. They discuss and develop solutions using basic marketing instruments.</li> <li>CG 3 introduced: Students reflect upon the potential ethical consequences of marketing and product decisions, in particular by solving case studies (e.g., on different environmental / social standards between countries, etc.).</li> <li>CG 4 introduced: Students develop innovative solutions for entrepreneurial scenarios in the B2B and B2C business. They develop strategies for different kinds of products based on real case studies and present their results in international groups.</li> <li>CG 6 reinforced: Students identify, develop and apply methods and tools for digital marketing and present their viable solutions by way of a paper and project presentation.</li> </ul>
<p>Content/ indicative syllabus</p>	<p><b>Basics of marketing management.</b> Students</p> <ul style="list-style-type: none"> <li>understand competitive markets</li> <li>understand the customer</li> <li>understand the importance of thinking and acting from the customers perspective and point of view</li> <li>understand how to cluster customers (segmentation)</li> </ul> <p><b>Strategic marketing management tools</b></p> <ul style="list-style-type: none"> <li>tools for analysing the company's own situation</li> <li>market-oriented strategic analysis tools</li> <li>decision-making tools in marketing</li> </ul> <p><b>Transferring strategies into operative action</b></p> <ul style="list-style-type: none"> <li>developing and handling products</li> <li>developing and handling communication measures</li> <li>developing and handling prices</li> <li>developing and handling distribution tools</li> </ul>
<p>Teaching and learning methodology</p>	<p>Mix between lectures and self-learning phases and presentations</p> <p>Case studies and discussion topics will be handed out during the session to be prepared by the students.</p>

	Particular focus will be given on the applicability of tools. The final exam will contain questions which have to be answered according to practical examples or application of tools, which have been applied during the course.
Indicative reading list	<p><b>Textbooks:</b></p> <ul style="list-style-type: none"> <li>– Hollensen, Svend: Global Marketing, 8th Edition, Prentice Hall 2020</li> <li>– Kotler, Philip, et al.: Marketing Management, 3rd Edition, Prentice Hall 2016</li> </ul>

#### 4.2.2. Supply Chain Management

Course	M2.2
Type of course	Core
Name of lecturer	<a href="#">Prof. Dr. Stephan Höfer</a> <a href="mailto:stephan.hoefer@reutlingen-university.de">stephan.hoefer@reutlingen-university.de</a>
Contact hours per week	2 hours
Learning outcomes	<p><b>Professional competencies:</b> After successfully attending this lecture, the students should be able to understand and to evaluate complex international supply chains. They acquire deep knowledge about the wide spectrum of challenges in procurement, production and distribution of goods and services. In addition, they reflect on how to apply new approaches to design flexible and synchronized value streams.</p> <p><b>Methodological competencies:</b> Based on case studies, students learn to apply tools and techniques to evaluate the performance of supply chains and to raise potential for improvement.</p> <p><b>Social competencies:</b> Based on their trained skills, the students are competent partners for specialists in production and logistics. They are able to quickly gain an overview of the coherent elements within a supply chain and are enabled to identify success factors by applying structuring and analytical methods for complex problems. They can convince and motivate their employees towards changes</p> <p><b>Personal competencies:</b> With the help of the discussed case studies, the participants learn to manage complexity in a rapidly changing supply chain environment.</p>
Course-specific contributions to AoL competency goals (CG 2-6)	<ul style="list-style-type: none"> <li>• CG 3 introduced: Students will be introduced to methods and ideas in relation to how the design of logistics processes, and especially in reverse logistics, can contribute to more sustainable operations.</li> <li>• CG 4 introduced: In small international teams students analyse, discuss, and solve in each of the lectures small business cases in the field of international logistics and supply chain management.</li> </ul>

	<ul style="list-style-type: none"> <li>CG 5 introduced: Participants learn to manage complexity in a rapidly changing supply chain environment and will be able to convince and motivate their employees towards change.</li> </ul>
Content/ indicative syllabus	<p>Content of this course:</p> <ul style="list-style-type: none"> <li>Supply Chain Management</li> <li>International Procurement</li> <li>Synchronized Production</li> <li>International Distribution</li> <li>Sustainability in Supply Chain Management</li> </ul>
Teaching and learning methodology	<p>Mix between lectures, case studies, and self-learning phases. Case studies and discussion topics will be prepared by the students for the next session(s).</p> <p>Focus will be given on the applicability of tools. The final exam will either contain small case studies with several assignment questions or problem-solving tasks asking for the application of tools and methods to concrete practical examples.</p>
Indicative reading list	<p><b>Basic reading:</b></p> <ul style="list-style-type: none"> <li>Robert Jacobs, Richard Chase: Operations and Supply Chain Management. McGraw-Hill Higher Education New York, 15 th. edition, 2017.</li> </ul> <p><b>Further reading:</b></p> <ul style="list-style-type: none"> <li>Paul Myerson: Lean Supply Chain and Logistics Management. McGraw Hill New York, 2012.</li> </ul>

### 4.3. Strategizing the Future

Module	M3
Semester	1
Duration of module	1 semester
Type of module	Core
Courses included in the module	<ul style="list-style-type: none"> <li>Understanding Markets and Environment</li> <li>Business Strategy</li> </ul>
How frequently is the module offered	Annually in winter semester

Admission requirements	None
Level	Master/ MBA
Responsible professor/module coordinator	Prof. Dr. Elizabeth Hofvenschiöld <a href="mailto:elizabeth.hofvenschioeld@reutlingen-university.de">elizabeth.hofvenschioeld@reutlingen-university.de</a>
Name(s) of lecturer(s)	Prof. Dr. Larissa Zierow <a href="mailto:larissa.zierow@reutlingen-university.de">larissa.zierow@reutlingen-university.de</a> Prof. Dr. Elizabeth Hofvenschiöld <a href="mailto:elizabeth.hofvenschioeld@reutlingen-university.de">elizabeth.hofvenschioeld@reutlingen-university.de</a>
Credits (ECTS)	6/90
Total workload and breakdown	180 hours (60 hours lecture time, 120 hours independent study)
Learning outcomes of the module	This module provides students with the theories, methods, case studies and practical applications of how to understand the past and present of business and anticipate the future of business.
Examination/type of assessment	CA + PA
Weighting of grade within programme	6/66

#### 4.3.1. Understanding Markets and Environments

Course	M3.1
Type of course	Core
Name of lecturer	<a href="mailto:larissa.zierow@reutlingen-university.de">Prof. Dr. Larissa Zierow</a> <a href="mailto:larissa.zierow@reutlingen-university.de">larissa.zierow@reutlingen-university.de</a>
Contact hours per week	2 hours
Learning outcomes	<b>Professional competencies</b> Students are familiar with the principles of economics and understand the relations between micro- and macroeconomics as well as the role of economic policy in a global economy. They are aware of the economic settings which are relevant for entrepreneurial decision- making. They understand and reflect the market mechanisms in different market forms. Students can appreciate the role and interaction of different economic

	<p>agents (households and firms) on aggregated markets, as well as the relevance of spill-over and feedback effects between the goods, money and labour markets. They are able to reflect the relevance of fiscal and monetary policy especially for employment and inflation in a global setting.</p> <p><b>Methodological competencies</b></p> <p>Students are informed about the key characteristics of relevant theoretical approaches in micro- and macroeconomics. They are aware of graphical, mathematical and econometric methods and tools to analyse and reflect market situations. They can describe and evaluate the implications of economic policy for individual and aggregate variables.</p> <p>Students know how to handle and apply complex economic approaches. They will have developed a feeling for the mix of intuitive and sometimes fuzzy arguments and formal rigor needed to work with (economic) theory. They will also understand the relevance of assumptions for the outcome of economic models.</p> <p><b>Social competencies</b></p> <p>Students discuss about economic challenges within an international peer group. They present solutions to analytical exercises to each other and are able to argue about economic topics in a logically consistent way and draw conclusions. They reflect on the ethical dimensions of their economic decisions.</p> <p><b>Personal competencies</b></p> <p>Students reflect and challenge economic problems and current challenges in a global economy. They deepen their knowledge of economic variables and settings and develop the ability to think as an economist. They apply their knowledge and expertise in business and develop economic questions on their own.</p>
<p>Course-specific contributions to AoL competency goals (CG 2-6)</p>	<ul style="list-style-type: none"> <li>● CG 2 reinforced: Students critically reflect and evaluate economic problems and current challenges in a global economy based on theoretical concepts and empirical studies. This enables them to deal with international and intercultural challenges in business behaviour.</li> <li>● CG 3 reinforced: Students reflect on the ethical implications of economic decision-making.</li> <li>● CG 4 reinforced: Students analyse an economic problem using an appropriate theoretical framework. They are able to discuss the limitations of a theoretical model and can recognise potential uncertainty of empirical/theoretical analysis in economics.</li> <li>● CG 6 introduced: Students understand and reflect the importance of digital business strategies for the concentration processes in economies.</li> </ul>
<p>Content/ indicative syllabus</p>	<ol style="list-style-type: none"> <li>1. The big questions about the economy: The capitalist revolution</li> <li>2. Economic decision making: scarcity, work, and choice</li> <li>3. Economic relationships and interactions             <ol style="list-style-type: none"> <li>a. Social interactions</li> <li>b. Property and power: mutual gains and conflict</li> <li>c. The firm: owners, managers, and employees</li> </ol> </li> </ol>

	<p>4. Markets</p> <ul style="list-style-type: none"> <li>a. The firm and its customers</li> <li>b. Supply and demand: Price-taking and competitive markets</li> </ul> <p>5. The aggregate economy in the short and medium run</p> <ul style="list-style-type: none"> <li>a. Economic fluctuations and unemployment</li> <li>b. Unemployment and fiscal policy</li> <li>c. Inflation, unemployment, and monetary policy</li> </ul>
Teaching and learning methodology	Lecture, cases, quizzes, exercises, group work, student presentations
Indicative reading list	<p><b>Basic:</b></p> <ul style="list-style-type: none"> <li>– The CORE team (2024), The Economy 2.0 Microeconomics, open source e-book: <a href="https://www.core-econ.org">The Economy 2.0: Microeconomics - CORE (core-econ.org)</a></li> <li>– The CORE team (2024), The Economy 2.0 Macroeconomics, open source e-book: <a href="https://www.core-econ.org">The Economy 2.0 - CORE (core-econ.org)</a></li> <li>– The CORE team (2022), The Economy 1.0, open source e-book: <a href="https://www.core-econ.org/the-economy/">https://www.core-econ.org/the-economy/</a></li> </ul> <p><b>Further Reading:</b></p> <ul style="list-style-type: none"> <li>– Mankiw, N. #### 4.4. Managing People and Culture

Module	M4
Semester	1
Duration of module	1 semester
Type of module	Core
Courses included in the module	<ul style="list-style-type: none"> <li>• Leading People and Change</li> <li>• Managing Across Cultures</li> </ul>
How frequently is the module offered	Annually in winter semester
Admission requirements	None
Level	Master/ MBA
Responsible professor/module coordinator	Prof. Dr. Julia Hormuth <a href="mailto:julia.hormuth@reutlingen-university.de">julia.hormuth@reutlingen-university.de</a>

Name(s) of lecturer(s)	Prof. Dr. Hazel Grünewald <a href="mailto:hazel.gruenewald@reutlingen-university.de">hazel.gruenewald@reutlingen-university.de</a> Prof. Dr. Julia Hormuth <a href="mailto:julia.hormuth@reutlingen-university.de">julia.hormuth@reutlingen-university.de</a>
Credits (ECTS)	6/90
Total workload and breakdown	180 hours (60 hours lecture time, 120 hours independent study)
Learning outcomes of the module	<p><b>Professional competencies:</b> Students will develop competencies vital for effective leadership and management in diverse organisational settings, with a particular emphasis on navigating international environments. This comprehensive module spans two semesters, systematically delving into various facets of organisational behaviour to provide a well-rounded understanding and practical skills for future success.</p> <p><b>Methodological competencies:</b> Students will learn to develop and answer specific research questions in accordance with academic standards. They will demonstrate the ability to stand back and view complex situations from different perspectives and to think critically about organisations and what happens in them. They will also hone their problem-solving skills by means of case analysis.</p> <p><b>Social competencies:</b> Students will cultivate essential interpersonal skills, laying a strong foundation for their future endeavours. This includes honing their abilities in effective communication, persuasive techniques, adept conflict resolution, teamwork and leadership.</p> <p><b>Personal competencies:</b> Our educational approach empowers students to refine their self-awareness, develop robust self-regulation and management skills, and elevate their overall personal and professional effectiveness.</p>
Examination/type of assessment	CA/PA
Weighting of grade within programme	6/66

#### 4.4.1. Leading People and Change

Course	M4.1
Type of course	Core
Name of lecturer	<a href="mailto:hazel.gruenewald@reutlingen-university.de">Prof. Dr. Hazel Gruenewald</a> <a href="mailto:hazel.gruenewald@reutlingen-university.de">hazel.gruenewald@reutlingen-university.de</a>

Contact hours per week	2 hours
Learning outcomes	<p><b>Professional competencies:</b> Students will acquire advanced proficiency in analysing and resolving complex issues within the realm of international people management. They will gain a sound understanding of how strategic workforce management impacts business success. Moreover, they will become well-versed in a range of diverse people management approaches and their practical applicability whilst developing the capacity to leverage various methods and tools effectively in specific, real-world situations.</p> <p><b>Methodological competencies:</b> participants will acquire skills in research, case study analysis, data analysis, strategic planning, stakeholder engagement, ethical decision-making, change communication, feedback and evaluation, as well as reflective practice. These competencies enable them to navigate complex organisational environments, lead change initiatives, and make informed, ethical decisions while enhancing their ability to work with diverse teams and adapt to evolving business landscapes.</p> <p><b>Social competencies:</b> Students will refine presentation, persuasion and teamwork skills for professional success, understanding intricate social dynamics in diverse business environments, including cross-cultural contexts.</p> <p><b>Personal competencies:</b> Students will enhance their self-awareness, cultivate strong self-regulation and management capabilities, and enhance their overall personal and professional efficiency.</p>
Course-specific contributions to AoL competency goals (CG 2-6)	<ul style="list-style-type: none"> <li>• CG 2 reinforced: Students reflect upon the cultural variables that impact decision making in a global business environment.</li> <li>• CG 3 reinforced: Students reflect upon the potential ethical consequences of management decisions from a cultural and personality perspective.</li> <li>• CG 4 reinforced: Problem-solving and application of theory into practice is an essential part of each piece of assessed coursework.</li> <li>• <b>CG 5 assessed:</b> Students will reflect on their capabilities and an overall aptitude for effective leadership. The assignment will be based on theoretical frameworks, the results of self-assessment inventories and class exercises.</li> </ul>
Content/ indicative syllabus	<ul style="list-style-type: none"> <li>• Partnering with HR and developing a people-centric mindset</li> <li>• Envisioning and addressing macro trends</li> <li>• Recognising and developing different leadership styles</li> <li>• Engaging and motivating employees</li> <li>• Managing different personalities and team dynamics</li> <li>• Leveraging authority, power and influence</li> <li>• Leading through change</li> </ul>

Teaching and learning methodology	Lectures (seminar-style), case studies, video extracts, exercises, self-assessment exercises
Indicative reading list	<ul style="list-style-type: none"> <li>- Bridges, W. &amp; Bridges, S. (2017). <i>Managing Transitions: Making the Most of Change</i>. (4<sup>th</sup> ed.). #### 4.6. German 1/ Business Language 1

Module	M6
Semester	1
Duration of module	1 semester
Type of module	Core
How frequently is the module offered	Annually in winter semester
Admission requirements	None, unless the student has prior knowledge of German. In this case, the student will take a placement test to determine the best placement level.
Level	Master/ MBA
Responsible professor/module coordinator	<p><a href="#">Prof. Yoany Beldarrain, Ph.D.</a></p> <p>Office: 5-116, Tel.: 07121 271 3101</p> <p><a href="mailto:yoany.beldarrain@reutlingen-university.de">yoany.beldarrain@reutlingen-university.de</a></p>

Name(s) of lecturer(s)	Depends on the language level and semester. Current lecturers: Josefine Kohle-Hempel, Susanne Lindner, Gabriele Cwejn, Martin Böhler, Swantje Uhde-Sailer
Credits (ECTS)	3/90
Total workload and breakdown	90 hours (60 hours lecture time, 30 hours independent study)
Learning outcomes of the module	<p>Students must demonstrate prerequisite skills in order to advance to the next level. After successful completion of this course, students should have developed:</p> <p><b>Professional competencies:</b></p> <ul style="list-style-type: none"> <li>• Students will improve their language skills, while increasing their knowledge of basic business terminology in the target language.</li> <li>• Students will demonstrate best practices for business communication skills in the target language.</li> <li>• On all levels, students will improve their communication skills according to their individual capabilities.</li> <li>• Students will acquire or improve their grammar skills and vocabulary in the target language according to their individual competency level.</li> <li>• Students will acquire or improve written and oral communication skills in the target language, especially those skills used in business contexts and situations in the student's personal context (studies, internships)</li> </ul> <p><b>Methodological competencies:</b></p> <ul style="list-style-type: none"> <li>• Students will analyze and discuss different business topics using the target language.</li> <li>• Social competencies:</li> <li>• Students will interact in the target language for various purposes and with different types of audiences.</li> <li>• Students will improve their intercultural awareness and intercultural communication competencies.</li> </ul> <p><b>Personal competencies:</b></p> <ul style="list-style-type: none"> <li>• Students will improve self-confidence using the target language for different purposes, including business situations.</li> <li>• Students will become familiar with Germany and the ways of life and business life in German-speaking countries.</li> <li>• Students will become aware of current economic developments in Germany and other German-speaking countries.</li> </ul>
Content/ indicative syllabus	Depends on the course level. Each level follows the Common European Framework of References for Languages (CEFR).
Teaching methodology	All teaching is by native speakers and based on short presentations, interactive activities, role-plays, written assignments, discussions, articles and short conversations.

Examination/type of assessment	CA
Weighting of grade within programme	ungraded
Indicative reading list	To be announced in class depending on the course level. Some textbooks and workbooks may be borrowed from the library.

#### 4.7. German 2/ Business Language 2

Module	M7
Semester	2
Duration of module	1 semester
Type of module	Core
How frequently is the module offered	Annually in summer semester
Admission requirements	Successful completion of previous level
Level	Master/ MBA
Responsible professor/module coordinator	<a href="#">Prof. Yoany Beldarrain, Ph.D.</a> Office: 5-116, Tel.: 07121 271 3101 <a href="mailto:yoany.beldarrain@reutlingen-university.de">yoany.beldarrain@reutlingen-university.de</a>
Name(s) of lecturer(s)	Depends on the language level and semester. Current lecturers: Josefina Kohle-Hempel, Susanne Lindner, Gabriele Cwejn, Martin Böhler, Swantje Uhde-Sailer
Credits (ECTS)	3/90
Total workload and breakdown	90 hours (60 hours lecture time, 30 hours independent study)
Learning outcomes of the module	After successful completion of this course, students should have developed: <b>Professional competencies:</b> <ul style="list-style-type: none"> <li>• Students will improve their language skills, while increasing their knowledge of basic business terminology in the target language.</li> <li>• Students will demonstrate best practices for business communication skills in the target language.</li> </ul>

	<ul style="list-style-type: none"> <li>• On all levels, students will improve their communication skills according to their individual capabilities.</li> <li>• Students will acquire or improve their grammar skills and vocabulary in the target language according to their individual competency level.</li> <li>• Students will acquire or improve written and oral communication skills in the target language, especially those skills used in business contexts and situations in the student’s personal context (studies, internships)</li> </ul> <p><b>Methodological competencies:</b></p> <p>Students will analyze and discuss different business topics using the target language.</p> <p><b>Social competencies:</b></p> <ul style="list-style-type: none"> <li>• Students will interact in the target language for various purposes and with different types of audiences.</li> <li>• Students will improve their intercultural awareness and intercultural communication competencies.</li> </ul> <p><b>Personal competencies:</b></p> <ul style="list-style-type: none"> <li>• Students will improve self-confidence using the target language for different purposes, including business situations.</li> <li>• Students will become familiar with Germany and the ways of life and business life in German-speaking countries.</li> <li>• Students will become aware of current economic developments in Germany and other German-speaking countries.</li> </ul>
Content/ indicative syllabus	Depends on the course level. Each level follows the Common European Framework of References for Languages (CEFR).

## 4.8. Business Research Methods

Module	M8
Semester	2

Duration of module	1 semester
Type of module	Core
How frequently is the module offered	Annually in summer semester
Admission requirements	None
Level	Master/ MBA
Responsible professor/module coordinator	<a href="#">Prof. Dr. Hermann Lassleben</a> <a href="mailto:hermann.lassleben@reutlingen-university.de">hermann.lassleben@reutlingen-university.de</a>
Name(s) of lecturer(s)	Prof. Dr. Hermann Lassleben <a href="mailto:hermann.lassleben@reutlingen-university.de">hermann.lassleben@reutlingen-university.de</a>
Credits (ECTS)	3/90
Total workload and breakdown	90 hours (30 hours lecture time, 60 hours independent study)
Learning outcomes of the module	<p>Upon successful completion, students will have developed the following competencies:</p> <p><b>Professional competencies</b></p> <p>The ability to examine scholarly research and concepts of international management critically from different perspectives.</p> <p><b>Methodological competencies</b></p> <p>The ability to independently conduct empirical research projects.</p> <p><b>Social competencies</b></p> <p>The ability to perform effectively as a team member, encourage and utilize others' contributions and to build teams.</p> <p><b>Personal competencies</b></p> <p>An increase in personal and work effectiveness, the ability to exercise self-reflection, improve self-awareness and self-management.</p>
Course-specific contributions to AoL competency goals (CG 2-6)	<ul style="list-style-type: none"> <li>CG 2 introduced: Students critically discuss research papers in diverse group settings. Some of the papers deal with cross-cultural issues and comparisons.</li> </ul>

	<ul style="list-style-type: none"> <li>• CG 3 introduced: Students become aware of the importance of ethical conduct in the context of empirical research, e.g., voluntariness and informed consent, protection of research participants from harm or damage, and anonymity and confidentiality of data.</li> <li>• CG 4 introduced: Students learn the most important methods of data analysis, which they can apply in their later scientific (e.g. thesis), but also practical (e.g. data analysis) work. Recommendations and transfer to practice is a standard topic of discussion in each paper.</li> <li>• CG 6 introduced: Students learn how to digitally collect (e.g. online surveys) and analyse quantitative (SPSS) and qualitative (MaxQDA) data.</li> </ul>
<p>Content/ indicative syllabus</p>	<ol style="list-style-type: none"> <li>1. Introducing Business Research</li> <li>2. Developing a Research Proposal</li> <li>3. Reviewing Literature</li> <li>4. Understanding Research Methodology and Design</li> <li>5. Understanding Research Methods, Populations and Sampling</li> <li>6. Using Secondary Data and Archival Sources</li> <li>7. Using Interviews and Focus Groups</li> <li>8. Using Questionnaires and Scales</li> <li>9. Managing Data and Introducing Data Analysis</li> <li>10. Analysing Quantitative Data</li> <li>11. Analysing Qualitative Data</li> <li>12. Drawing Conclusions and Writing Research</li> </ol>
<p>Teaching methodology</p>	<p>Students learn (read, review, and discuss) the basic principles of business research. For this purpose, they prepare relevant chapters of the textbook by Quinlan and colleagues (2015) for class meetings, where they are recapitulated and discussed.</p> <p>Students also reflect (read, recapitulate, and discuss) current research in the field of international management. To this end, they prepare high-quality research papers on important topics in international management, provided in advance by the instructor, for class meetings where they are recapitulated and discussed. In doing so, they deepen their understanding of the application of business research principles and strategies, and become familiar with a variety of current international management issues and research.</p> <p>Students develop a research proposal on a topic of their choice. In doing so, they think through the entire research process from generating a research question and objective, configuring an appropriate research design, reviewing the literature, developing hypotheses/research questions, deciding on and developing research methods, determining the sample, managing data collection, analysing data, drawing conclusions, discussing findings, and writing up their research idea.</p>

Examination/type of assessment	PA (Research Proposal) (pass/fail)
Weighting of grade within programme	ungraded
Indicative reading list	<ul style="list-style-type: none"><li>- American Psychological Association. (2020). Publication Manual of the American Psychological Association: The Official Guide to APA Style. 7th Edition. APA.</li><li>- Collis, J. &amp; Hussey, R. (2021). ## 5. Elective Modules

### 5.1. Electives M9 - M11 - Strategy Creation and Execution

Semester	2
Duration	1 semester
Type of course	Elective
How frequently is the elective offered	Annually in Summer semester
Level	Master/ MBA
Responsible professor/ coordinator	<a href="#">Prof. Dr. Philipp Wunderlich</a> <a href="mailto:philipp.wunderlich@reutlingen-university.de">philipp.wunderlich@reutlingen-university.de</a>
Name(s) of lecturer(s)	Prof. Dr. Philipp Wunderlich <a href="mailto:philipp.wunderlich@reutlingen-university.de">philipp.wunderlich@reutlingen-university.de</a>
Credits (ECTS)	6/90
Total workload and breakdown	180 hours (45 hours lecture time, 135 hours independent study)
Contact hours per week	3 hours
Learning outcomes of the elective	<p><b>Subject-specific competencies</b></p> <p>Students learn the key tools and frameworks utilized in the successful execution of strategy with focus on management of change and transformation. The theoretical aspects of the course are reviewed in practical exercises, design and reviews of change projects and best practices and assignments. The course includes case study discussions and the practical application of different approaches, either in the classroom or with external partners, such as companies and consulting firms.</p> <p><b>Professional, methodological competencies</b></p> <p>The students should be able to understand how strategy execution is driven by focusing on the human side of change and utilize appropriate frameworks and tools. Students should understand the aspects of resistance to change and approaches to communicate all aspects of organizational change and transformations. Based on the different exercises and assignments, the students should be able to plan, structure and support the execution of change programmes in multi-cultural environments.</p>

	<p>Students will be able to understand the dynamics of change process as part of strategy execution. Conceptual thought in strategy management and management consulting is leveraged and enhanced. The students will be prepared to support senior executives in strategy execution and in support of major change programmes.</p> <p><b>Personal competencies</b></p> <p>Students should be able to interact with change targets, structure and support major strategy execution initiatives and change initiatives. Understanding of human elements of change, motivating for change and successful communication techniques are key competencies, which will be improved.</p> <p><b>Social skills, key competencies</b></p> <p>Students should significantly enhance their change agent capabilities including communication, empathy and understanding of human dynamics.</p>
<p>Course-specific contributions to AoL competency goals (CG 2-6)</p>	<ul style="list-style-type: none"> <li>• CG 2 introduced: Students understand the culture-dependence of change processes (resistance to change, how to manage change in different cultural environments) and can adapt their behaviour accordingly.</li> <li>• CG 3 introduced: Students learn to consider different stakeholder interests in change management processes.</li> <li>• CG 4 (Problem-solving for entrepreneurial scenarios) reinforced: Students learn to manage change management processes by integrating their business and management competencies.</li> </ul>
<p>Content/ indicative syllabus</p>	<p>The following topics will be discussed based on the current changes in the health sector:</p> <ol style="list-style-type: none"> <li>1. Basics of strategy execution and success factors</li> <li>2. Management of change as a critical competency</li> <li>3. Theories of change and transformation</li> <li>4. Aspects of resistance and communication</li> <li>5. Planning and driving change programs</li> <li>6. Best practices</li> </ol>
<p>Teaching methodology</p>	<p>Lecture, cases, group work</p>
<p>Examination/ type of assessment</p>	<p>PA</p>
<p>Weighting of grade within programme</p>	<p>6/66</p>
<p>Indicative reading list</p>	<p>Dan S. Cohen &amp; John P. Kotter (2005) The Heart of Change Field Guide, HBS Press, 2005</p>

## 5.2. Electives M9 - M11 - Data Analytics and Decision Making

Semester	2
Duration	1 semester
Type of course	Elective
How frequently is the elective offered	Annually in summer semester
Level	Master/ MBA
Responsible professor/ coordinator	<a href="#">Prof. Dr. Sascha Schweitzer</a> <a href="mailto:sascha.schweitzer@reutlingen-university.de">sascha.schweitzer@reutlingen-university.de</a>
Name(s) of lecturer(s)	Prof. Dr. Sascha Schweitzer <a href="mailto:sascha.schweitzer@reutlingen-university.de">sascha.schweitzer@reutlingen-university.de</a>
Credits (ECTS)	6/90
Total workload and breakdown	180 hours (45 hours lecture time, 135 hours independent study)
Contact hours per week	3 hours
Learning outcomes of the elective	<p><b>Professional competencies</b></p> <ul style="list-style-type: none"> <li>• Students know the purpose, tools, and process of business analytics.</li> <li>• Students have the ability to explore data sets and identify meaningful questions.</li> <li>• Students have the ability to hypothesize and test cause-and-effect relationships of economic interrelations on the basis of empirical methods.</li> <li>• Students are familiar with the fundamental rules of analysing large data sets with univariate and multivariate empirical methods.</li> <li>• Students are able to combine business questions with data-based solutions and both visualize and communicate analysis results to information recipients without substantial knowledge in statistics / analytics.</li> </ul> <p><b>Methodological competencies</b></p> <ul style="list-style-type: none"> <li>• Students master both fundamental and advanced methods of analysing large data sets with univariate and multivariate empirical methods.</li> <li>• Students have an understanding of the derivation of analytically relevant properties of databases.</li> </ul>

	<ul style="list-style-type: none"> <li>Students master the fields of application and the handling of practice-relevant analysis methods (focus: regression analysis, cluster analysis, machine learning).</li> <li>Students have an understanding of the choice and application of different types of visualisations. In doing so, they recognize and mitigate potential caveats of the visualisation methods.</li> </ul> <p><b>Social competencies</b></p> <ul style="list-style-type: none"> <li>Students improve skills of (oral and written) structured communication as well as the ability of working in teams with respect to time constraints.</li> <li>Students apply the legal and ethical limitations of data utilization.</li> </ul> <p><b>Personal competencies</b></p> <ul style="list-style-type: none"> <li>Students are able to deal with previously unknown programming languages (SQL, Python) in a structured and goal-oriented way.</li> <li>Students can quickly and concisely narrow down complex issues to the attributes and metrics relevant to a problem.</li> </ul>
Course-specific contributions to AoL competency goals (CG 2-6)	<ul style="list-style-type: none"> <li>CG 3 introduced: In group discussion, students must weigh the benefits of gaining insight through data collection and analysis against the privacy and liberty rights of consumers, employees, etc.</li> <li>CG 4 reinforced: The students practice the translation of statistical analysis results into the <i>language</i> of management in order to prepare decisions in an international management context.</li> <li>CG 5 reinforced: Via an exam question at the end of semester exam requiring students to demonstrate their ability to use multivariate data analysis tools to understand, interpret and analyse data and communicate the results effectively to a non-expert audience.</li> <li>CG 6 reinforced: The students practice the selection of the appropriate method of data analysis for a given research question.</li> </ul>
Content/ indicative syllabus	<ul style="list-style-type: none"> <li>Objectives, components, and process of data analytics</li> <li>Data storage and organisation</li> <li>Data handling and data transformation</li> <li>Uni- &amp; multivariate methods of data analysis</li> <li>Interpretation, visualisation, and communication of analysis results</li> </ul>
Teaching methodology	<ul style="list-style-type: none"> <li>Lectures, case studies, student presentations</li> <li>Software-based (SQL, Python) data analysis</li> </ul>
Examination/ type of assessment	PA
Weighting of grade within programme	6/66

Indicative reading list	<ul style="list-style-type: none"> <li>– Berry, M.J.A.; Linoff, G.S. (2000): Mastering Data Mining. The Art and Science of Customer Relationship Management. -------------------------	---

### 5.3. Electives M9 - M11 - Lean Enterprise Management

Semester	2
Duration	1 semester
Type of course	Elective
How frequently is the elective offered	Annually in summer semester
Level	Master/ MBA
Responsible professor/ coordinator	<a href="#">Prof. Dr. Stephan Höfer</a> <a href="mailto:stephan.hoefer@reutlingen-university.de">stephan.hoefer@reutlingen-university.de</a>
Name(s) of lecturer(s)	Prof. Dr. Stephan Höfer <a href="mailto:stephan.hoefer@reutlingen-university.de">stephan.hoefer@reutlingen-university.de</a>
Credits (ECTS)	6/90

Total workload and breakdown	180 hours (45 hours lecture time, 135 hours independent study)
Contact hours per week	3 hours
Learning outcomes of the elective	<p><b>Professional competencies:</b> After successfully attending this lecture, students should be able to implement the lean philosophy in their daily business life, and they understand the need for applying it in all areas of an enterprise. They can identify and quantify waste within business and production processes and know how to create lean value streams. They understand how to manage change processes towards lean enterprises and understand how to face resistance right from the beginning.</p> <p><b>Methodological competencies:</b> Based on case studies, students learn to apply tools and techniques to evaluate the performance of business and production processes, to raise potential for improvement, and to guarantee a sustainable implementation.</p> <p><b>Social competencies:</b> Based on their trained skills the students are able to convince and motivate their employees towards a continuous improvement culture.</p> <p><b>Personal competencies:</b> With the help of the discussed case studies, the participants learn to manage change in a rapidly changing business environment.</p>
Course-specific contributions to AoL competency goals (CG 2-6)	<ul style="list-style-type: none"> <li>• CG 3 reinforced: Lean Management is all about reducing waste. Whether it is waste in transportation, in materials or in using energy and time. Thus, students will learn about how to apply, in practice, the idea of sustainable operations.</li> <li>• CG 4 reinforced: In small international teams students analyse, discuss and solve small business cases in the field of lean enterprise management, where they apply to identify and solve problems.</li> <li>• CG 5 reinforced: Lean Leadership requires a set of skills and competencies to shift an organisation towards a lean enterprise. This includes the management of change, stakeholder management and to implement Kata.</li> </ul>
Content/ indicative syllabus	<ul style="list-style-type: none"> <li>• Lean Enterprise Management</li> <li>• Lean Manufacturing</li> <li>• Simulation Game: From Push to Pull</li> <li>• Lean Administration</li> <li>• Business Case Supply Chain Leadtime reduction</li> <li>• Management of change and resistance</li> </ul>

Teaching methodology	<p>After acquiring the theoretical background, they apply the topics they have learned in exercises and business cases.. Based on a simulation game they experience the potential of pull systems versus push systems and learn how to design the change process towards synchronized production processes. Based on business cases from various areas within the administration like HR, R&amp;D, and Sales, the students learn to apply the lean philosophy in these areas as well.</p> <p>At the end of the course, i the task of the students is to act as consultants and to provide a concept for holistic supply chain optimization, including a manufacturing and business process. Therefore, all previously dicussed topics have to be applied. Based on this case, potential project management approaches will be discussed and ways to face resistance will be addressed.</p>
Examination/ type of assessment	PA
Weighting of grade within programme	6/66
Indicative reading list	CHIARINI, A. (2013): Lean Organization: From the Tools of the Toyota Production System to Lean Office. Springer Verlag, ISBN 978-88-470-2509-7

## 5.4. Electives M9 - M11 - Entrepreneurship Unleashed: Creating Opportunities

Semester	2
Duration	1 semester
Type of course	Elective
How frequently is the elective offered	Annually in summer semester
Level	Master/ MBA
Responsible professor coordinator	Ivija Bernatović, MBA <a href="mailto:ivija.bernatovic@zsem.hr">ivija.bernatovic@zsem.hr</a>
Name(s) of lecturer(s)	Ivija Bernatović, MBA <a href="mailto:ivija.bernatovic@zsem.hr">ivija.bernatovic@zsem.hr</a>
Credits (ECTS)	6/90
Total workload and breakdown	180 hours (45 hours lecture time, 135 hours independent study)

<p>Contact hours per week</p>	<p>3 hours</p>
<p>Learning outcomes of the elective</p>	<p><b>Professional competencies</b> Students will be able to develop comprehensive business plans and implement strategies that align with market needs. Understanding the key financial principles and cash flow management, but also gaining the ability to critically evaluate market opportunities, trends, risks to identify viable business ideas.</p> <p><b>Methodological competencies</b> By applying lean startup principles to test and validate business ideas quickly and efficiently. Students will use design thinking, creative problem-solving and decision-making frameworks to tackle business challenge. In combination of available market research data, data analytics and customer feedback to guide business development.</p> <p><b>Social competencies</b> Social competencies are strengthened as students build effective teams, manage group dynamics and collaborate in entrepreneurial settings. Students will deliver persuasive pitches and presentations tailored to different stakeholders, including investors, partners and the end customer.</p> <p><b>Personal competencies</b> The class fosters the mindset to handle failure, pivot strategies, and remain flexible in the face of uncertainty. Engaging in self-reflection to continuously improve entrepreneurial skills and personal effectiveness. Through discussions on different stories and examples, students cultivate the confidence to take calculated risks, think creatively and drive innovations.</p>
<p>Course-specific contributions to AoL competency goals (CG 2-6)</p>	<ul style="list-style-type: none"> <li>• CG 2 reinforced: Students will develop a deep understanding of cultural diversity and be able to navigate and collaborate effectively in multicultural teams. They will demonstrate strong intercultural communication skills, allowing them to build productive relationships in global business environments.</li> <li>• CG3 reinforced: The ability to make informed, responsible decisions that account for both business imperatives and broader environmental impacts will be demonstrated and applied in practical business scenarios.</li> <li>• CG4 reinforced: Students will be skilled at analyzing intricate global management problems and developing strategic solutions. They will demonstrate an ability to synthesize diverse information and apply critical thinking to navigate the complexities of international business environments.</li> <li>• CG5 introduced: By empowering students to guide teams towards achieving organizational goals, they will demonstrate adaptability, emotional intelligence, and the capacity to inspire and influence others in dynamic business settings.</li> <li>• CG6 introduced: Students will have the ability to critically evaluate the impact of digital technologies on business models and market dynamics.</li> </ul>

	They will be capable of designing and implementing innovative digital strategies that drive business growth and enhance competitive advantage in the digital economy.
Content/ indicative syllabus	<ol style="list-style-type: none"> <li>1. Introduction + Opportunity recognition and market analysis</li> <li>2. Design thinking and innovation</li> <li>3. Business Model Development</li> <li>4. Financial planning and Resource management</li> <li>5. Marketing and sales</li> <li>6. Leadership and team building</li> <li>7. Legal, ethical and exit strategies</li> <li>8. Pitch presentation</li> </ol>
Teaching methodology	The module employs a combination of case studies, interactive workshops, guest lectures from industry experts, and group projects to provide a comprehensive understanding of entrepreneurship and creating opportunities. Real-world examples and current trends in entrepreneurship and startup worlds will be emphasised, enabling students to apply knowledge to practical business scenarios.
Examination/ type of assessment	PA
Weighting of grade within programme	6/66
Indicative reading list	<ul style="list-style-type: none"> <li>– Ries, E. (2011). The lean startup: How today's entrepreneurs use continuous innovation to create radically successful businesses. ## 5.5. Electives M9 - M11 - Data-Driven Marketing

Semester	2
Duration	1 semester
Type of course	Elective
How frequently is the elective offered	Annually in summer semester
Level	Master/ MBA
Responsible professor/module coordinator	<a href="#">Prof. Dr. Yvonne Graf</a> <a href="mailto:yvonne.graf@reutlingen-university.de">yvonne.graf@reutlingen-university.de</a>
Name(s) of lecturer(s)	Prof. Dr. Yvonne Graf <a href="mailto:yvonne.graf@reutlingen-university.de">yvonne.graf@reutlingen-university.de</a>
Credits (ECTS)	6/90
Total workload and breakdown	180 hours (45 hours lecture time, 135 hours independent study)
Contact hours per week	3 hours
Learning outcomes of the elective	<p><b>Professional competencies</b> Students will acquire the expertise to develop and execute data-driven marketing strategies that align with overarching business objectives. This involves cultivating a profound understanding of market trends, customer behavior, and emerging technologies.</p> <p><b>Methodological competencies</b> Students will be able to apply frameworks and tools to address specific digital marketing challenges. They will gain proficiency in statistical analysis as a foundation for data-driven decision-making and comprehend the underlying logic of AI-based models. This knowledge empowers them to communicate effectively with relevant stakeholders and find solutions for complex marketing issues.</p> <p><b>Social competencies</b> Students work in groups towards a common goal, improving their ability to work together effectively.</p> <p><b>Personal competencies</b> Students will demonstrate creativity and innovation in developing data-driven marketing strategies and tactics that address real-world business challenges.</p>

Course-specific contributions to AoL competency goals (CG 2-6)	<ul style="list-style-type: none"> <li>CG 4 reinforced: Students will learn to address complex marketing problems. This involves not only acquiring knowledge about appropriate frameworks but also becoming proficient in utilizing various tools for effective issue resolution.</li> <li>CG6 reinforced: Students will gain a comprehensive understanding of digital marketing analytics, including key performance indicators (KPIs). They will learn how to choose the appropriate metrics to measure customer behavior and engagement, and how to analyze the results to gain valuable insights into customer preferences and needs. Also they will deepen their proficiency in various statistical methods for more informed marketing decisions.</li> </ul>
Content/ indicative syllabus	<ol style="list-style-type: none"> <li>1. Introduction to Digital Marketing</li> <li>2. Digital Marketing Strategy &amp; Tactics</li> <li>3. Data Analytics</li> <li>4. AI in Marketing</li> </ol>
Teaching methodology	<p>A mixture of learning methods is applied:</p> <ul style="list-style-type: none"> <li>• Interactive teaching with discussions</li> <li>• Project work in small groups</li> <li>• Case studies</li> </ul>
Examination/type of assessment	PA
Weighting of grade within programme	6/66

## 5.6. Electives M9 - M11 - Venture Capital Financing

Semester	2
Duration	1 semester
Type of course	Elective
How frequently is the elective offered	Annually in summer semester
Level	Master/ MBA

Responsible professor/ coordinator	Dr. Cornelius Jasper Maas <a href="mailto:cm@shs-capital.eu">cm@shs-capital.eu</a>
Name(s) of lecturer(s)	Dr. Cornelius Jasper Maas <a href="mailto:cm@shs-capital.eu">cm@shs-capital.eu</a>
Credits (ECTS)	6/90
Total workload and breakdown	180 hours (45 hours lecture time, 135 hours independent study)
Contact hours per week	3 hours
Learning outcomes of the elective	<p><b>Professional competencies:</b> Comprehensive understanding of the venture capital industry including key stakeholders and their intentions. By leading the students through various dimension of the topic, they will understand the interaction of legal, financial, and economical dimensions. Using case studies, students will develop skills and templates for pitching their own business ideas and strategies to convince investors or boards.</p> <p><b>Methodological competencies:</b> The lecture will equip students with real world investment evaluation patterns used to assess the potential of business ideas and start-ups. By transferring these patterns into potential deal structure mechanics, students will understand how venture capital funds try to manage risks while simultaneously increasing the upside for the fund. Insights about due diligence management and legal, and financial documentation will round up the methodological framework of this lecture.</p> <p><b>Social competencies:</b> The various planned case studies will lead to interactive group discussions and brainstorming sessions increasing pitching, discussion and negotiation skills of the group. Students will receive open feedback about their presentation skills to increase the overall style and authenticity of their presentations. A guest lecture by a founder of a digital business model start-up will touch on advantages of networking and relationship building, which is an essential part of the venture capital industry.</p> <p><b>Personal competencies:</b> Students' critical thinking, adaptability and decision-making skills will be fostered within the course. By understanding how to approach investment decisions, the students will prepare themselves for either working in venture capital funds or founding their own start-up. Our start-up founder guest speaker will also report on disappointments in the dynamic journey of an entrepreneur to teach students about the importance of resilience.</p>
Course-specific contributions to AoL competency goals (CG 2-6)	<ul style="list-style-type: none"> <li>CG 4 reinforced: Students learn how the distinct venture capital stakeholders individually try to optimize their position in collaborations, i.e. via specific legal and financial levers in shareholders and investment agreements.</li> </ul>

	<ul style="list-style-type: none"> <li>• CG 5 introduced: Students will become educated on negotiation and leadership skills, enabling them to lead similar processes in their future professional careers.</li> <li>• CG 6 reinforced: Based on a guest lecture and case study of a digital business start-up, students will be able to understand the characteristics of asset-light, digital business models and their economies of scale.</li> </ul>
<p>Content/ indicative syllabus</p>	<p><b>Introduction Venture Capital</b>          Lectures will start with an overview of origins and the evolution of venture capital, which role it plays for the economy, while also touching on its impact on societies. Additionally, students will understand the key players in the venture capital ecosystem (entrepreneurs, founders, investors, business angels, funds, ...) as well as the rationale and drivers in their individual decision making. Further, the various venture capital funding stages will be explored (Seed, Series A, Series B, ...) by addressing phase-specific characteristics.</p> <p><b>Lifecycle of a Venture Capital Fund</b>          Students will learn the lifecycle of funds from fundraising, dealflow, due diligence, dealmaking, to asset management and exit. The role of limited and general partners and according fee structures between these players will be explained. Subsequently, a deep dive into various parts of a typical venture capital investment process as well as exit strategies (IPO, trade sale, secondary, ...) will be taught, educating students about their impact on VC fund returns.</p> <p><b>The Entrepreneurial Journey</b>          This part of the course will change perspectives to get students familiar with the rationale and challenges of founding a start-up. Insights into entrepreneurial everyday life with real examples will be presented by inviting a start-up founder as a guest speaker. This part of the lecture will also include group discussions about career planning, familiarising students with financial and other incentives behind entrepreneurial career paths.</p> <p><b>Legal Perspective</b>          In this section, the lecture will focus on the legal dimension of venture capital deals. Students will understand the rationale behind key documents in the venture capital industry such as term sheets, investment contracts, stock purchase agreements, as well as shareholder agreements. In addition, venture capital specific clauses and their purpose will be examined - such as liquidation preference, anti-dilution, call options, drag- and tag-along rights. Term sheet structuring case studies will be used to further shape the understanding of these topics.</p> <p><b>Financial Perspective</b>          Students will examine the role of financial models as well as cap tables in this lecture part. They will set up their own business plan models for simulated ventures to understand the interaction of a P&amp;L, balance sheets, cashflow as well as liquidity needs. In addition, cap table development will be jointly simulated in order to educate the students about shareholding dilution implications.</p>

	<p><b>Practical Applications and Insights</b></p> <p>In the last part of the course, students will get useful insights on compelling pitch decks and storytelling, as well as pitching successfully in front of investors. By analyzing real-world pitch decks, students will understand the red line in slide decks. In addition, pitch situations will be simulated in order to increase the student's skillset when convincing boards or investors on innovative ideas.</p>
Teaching methodology	<p>The course includes a combination of classical lecturing, case studies, interactive workshops, group projects and discussions, as well as a guest lecture from a start-up founder. Real-world documents and methodological venture capital frameworks will be used in order to assess innovative start-up ideas enabling students to understand the thinking and decision-making of venture capital funds.</p>
Examination/type of assessment	PA
Weighting of grade within programme	6/66

## 5.7. Electives M9 - M11 - Business Models for a Circular Economy

Semester	2
Duration	1 semester
Type of course	Elective
How frequently is the elective offered	Annually in summer semester
Level	Master/ MBA
Responsible professor/ coordinator	<a href="#">Prof. Dr. Maud Schmiedeknecht</a> <a href="mailto:maud.schmiedeknecht@reutlingen-university.de">maud.schmiedeknecht@reutlingen-university.de</a>
Name(s) of lecturer(s)	Prof. Dr. Maud Schmiedeknecht <a href="mailto:maud.schmiedeknecht@reutlingen-university.de">maud.schmiedeknecht@reutlingen-university.de</a>
Credits (ECTS)	6/90
Total workload and breakdown	180 hours (45 hours lecture time, 135 hours independent study)
Contact hours per week	3 hours
Learning outcomes of the elective	<p><b>Professional competencies</b> Providing real-world examples of businesses successfully implementing circular economy principles. Through case studies and practical projects, students develop technical skills in circular design, project management in sustainable initiatives, and leadership abilities needed to drive change within organisations.</p> <p><b>Methodological competencies</b> By emphasizing research into innovative circular business models, this class sharpens methodological competencies. Students engage in analyzing and assessing the impact of circular practices, fostering a solid foundation in research and analytical thinking.</p> <p><b>Social competencies</b> Social competencies are strengthened as students collaborate on group projects, simulating real-world teamwork in implementing circular strategies. The emphasis on stakeholder engagement and communication in the context of sustainable business practices cultivates interpersonal skills, enabling students to effectively convey complex ideas and negotiate solutions with diverse stakeholders.</p> <p><b>Personal competencies</b> The class fosters adaptability and resilience by exploring the evolving landscape of circular economies and preparing students to navigate sustainability challenges. Through discussions on ethical considerations in</p>

	business model transitions, students develop a strong sense of ethical decision-making, contributing to their personal competencies and reinforcing the importance of values in their professional journey.
Course-specific contributions to AoL competency goals (CG 2-6)	<ul style="list-style-type: none"> <li>• CG 3 reinforced: Students understand the underlying principles and theoretical concepts of a circular economy. They are aware of ethical and legal issues and are able to identify ethical dilemmas of management decisions.</li> <li>• CG 4 reinforced: Students analyse and assess business models in the circular economy. They understand the complexity of setting up new circular business models or transforming existing business models accordingly.</li> <li>• CG 5 reinforced: Students reflect upon their social responsibility of business development projects.</li> <li>• CG 6 reinforced: Students understand circular (digital) business models and innovation.</li> </ul>
Content/ indicative syllabus	<ul style="list-style-type: none"> <li>• <b>Circular Economy Concepts:</b> Grasp the fundamental principles of the Circular Economy and its significance in the contemporary business landscape.</li> <li>• <b>Circular Business Models:</b> Explore a spectrum of circular business models, from product-as-a-service to closed-loop systems, and assess their applicability across industries.</li> <li>• <b>Circular Design Thinking:</b> Develop skills in applying circular design principles to product and service development, fostering innovation with a focus on sustainability.</li> <li>• <b>Circular Strategies:</b> Develop strategies for integrating circular economy principles into existing business frameworks, addressing challenges and leveraging opportunities for sustainable growth.</li> </ul>
Teaching methodology	The module employs a combination of case studies, interactive workshops, guest lectures from industry experts, and group projects to provide a comprehensive understanding of circular business models. Real-world examples and current trends in circular economy practices will be emphasised, enabling students to apply theoretical knowledge to practical business scenarios.
Examination/type of assessment	PA
Weighting of grade within programme	6/66

## 5.8. Electives M9 - M11 - Social Entrepreneurship (Center for Entrepreneurship)

Semester	2
Duration	1 semester
Type of course	Elective
How frequently is the elective offered	Annually in summer semester
Level	Master/ MBA
Responsible professor/ coordinator	Peter Fluhrer <a href="mailto:fluhrer@baertigerwolf.de">fluhrer@baertigerwolf.de</a>
Name(s) of lecturer(s)	Peter Fluhrer <a href="mailto:fluhrer@baertigerwolf.de">fluhrer@baertigerwolf.de</a> <a href="mailto:Peter.Fluhrer@Reutlingen-University.DE">Peter.Fluhrer@Reutlingen-University.DE</a>
Credits (ECTS)	6/90
Total workload and breakdown	180 hours (45 hours lecture time, 135 hours independent study)
Contact hours per week	3 hours
Learning outcomes of the elective	After the successful completion of the module the students should have developed the following competencies:  <b>Professional competencies:</b>  <b>Methodological competencies:</b>

	<p><b>Social competencies:</b></p> <p><b>Personal competencies:</b></p> <ul style="list-style-type: none"> <li>• Develop sustainable human-centred business solutions</li> <li>• Build and conduct structured interviews</li> <li>• Validate a start-up idea</li> <li>• Present the start-up idea in a 3-minute Hollywood pitch</li> </ul>
Course-specific contributions to AoL competency goals (CG 2-6)	<ul style="list-style-type: none"> <li>• CG 2:</li> <li>• CG 3:</li> <li>• CG 4:</li> <li>• CG 5:</li> <li>• CG 6:</li> </ul>
Content/ indicative syllabus	<p>The course ‘Social Entrepreneurship’ offers an intensive learning experience that focuses on the sensitisation, creation, evaluation and prototyping of a business idea for a social enterprise.</p> <p>Participants will start by studying a problematic social or environment issue to learn more about the source of the problem. They will then learn how to find a solution for this problem and validate and assess market attractiveness of their solution. The next step will be forming competitive strategies and developing a minimum viable product and/ or service.</p> <p>In the pitching sessions, participants will learn how to present their venture idea in a three-minute pitch.</p> <p>The module ‘Social Entrepreneurship’ follows the idea of project-based learning. The project students will be working on is their venture idea. Students do not need to have a business idea before entering this course. However, it will help be helpful for further progression. Using a sequence of nine sessions, the module leverages the theoretical input with hands-on sessions and intensive mentoring by industry experts to support the development of their social venture.</p>
Teaching methodology	Project-based learning, group work, presentations, workshops
Examination/type of assessment	<p>PA</p> <ol style="list-style-type: none"> <li>1. Attendance and cooperation 30%</li> <li>2. Pitch 35%</li> <li>3. Written assignment 35%</li> </ol>
Weighting of grade within programme	6/66

## 5.9. Electives M9 - M11 - Leveraging Diversity, Equity and Inclusion (DEI) as Organizational Drivers

Semester	2
Duration	1 semester
Type of course	Elective
How frequently is the elective offered	Annually in summer semester
Level	Master/ MBA
Responsible professor/ coordinator	<a href="#">Prof. Yoany Beldarrain, Ph.D.</a> <a href="mailto:yoany.beldarrain@reutlingen-university.de">yoany.beldarrain@reutlingen-university.de</a>
Name(s) of lecturer(s)	Prof. Yoany Beldarrain, Ph.D. <a href="mailto:yoany.beldarrain@reutlingen-university.de">yoany.beldarrain@reutlingen-university.de</a>
Credits (ECTS)	6/90
Total workload and breakdown	180 hours (45 hours lecture time, 135 hours independent study)
Contact hours per week	3 hours
Learning outcomes of the elective	<p><b>Professional competencies:</b> Participants know how to align DEI with organizational values and strategies for the benefit of the organisation and other stakeholders.</p> <p><b>Methodological competencies:</b> Participants prioritize values of fairness, equity, etc., when solving a business problem. They understand why it's important to give everyone a voice when collecting feedback via surveys or interviews, and how to use insight gained for driving change.</p> <p><b>Social competencies:</b> Participants understand the impact of DEI on workplace culture and sense of belonging. They take active steps to create a positive organizational culture.</p> <p><b>Personal competencies:</b> Participants understand how concepts of DEI impact their own personal lives, and reflect on their own biases and behaviours.</p>

<p>Course-specific contributions to AoL competency goals (CG 2-6)</p>	<ul style="list-style-type: none"> <li>• CG 2 reinforced: Participants will engage in high-level discussions about the intercultural aspects of DEI. In addition, students will experience intercultural exchange of ideas with students from North Carolina State University in the United States.</li> <li>• CG 3 reinforced: Participants will apply ethical decision-making in the process of solving the assigned business problem. They will use values such as fairness, equity, etc.</li> <li>• CG 4 reinforced: same as above</li> <li>• CG 5 reinforced: Participants will reflect on their own leadership style but also about the impact of leadership style(s) best suited for leveraging DEI as organizational drivers as well as creating and promoting a sense of workplace belonging and safety.</li> </ul>
<p>Content/ indicative syllabus</p>	<p>The topics include but are not limited to:</p> <ol style="list-style-type: none"> <li>1. The business case for DEI as organizational drivers, as it relates to different organizational functions.</li> <li>2. Aligning DEI with organizational values and strategic orientation</li> <li>3. Creating and promoting a sense of workplace belonging and safety to hire and retain a diverse workforce</li> <li>4. Leveraging DEI for innovation</li> <li>5. Leveraging DEI for societal impact beyond profits</li> </ol>
<p>Teaching methodology</p>	<p>The main teaching methodology in this seminar is problem-based learning. Students will explore and apply key points from class as they solve an open-ended, real business problem involving DEI. A highlight of this elective is an intercultural collaboration with students from North Carolina State University in the United States. This collaboration will take place online but very possibly in person as well, depending on the semester. If students from North Carolina State University are able to travel to Germany, additional intercultural activities and excursions will be planned.</p>
<p>Examination/type of assessment</p>	<p>PA</p>
<p>Weighting of grade within programme</p>	<p>6/66</p>
<p>Indicative reading list</p>	<p>This seminar uses current government publications, research articles, and case studies. The following source will be used as a springboard for the seminar project:</p> <ul style="list-style-type: none"> <li>- Golom, F.D., &amp; Cruz, M. (2021), Context-Levels-Culture: A Diagnostic Framework for Consulting to Diversity, Equity, and Inclusion Change in Organizations, in (Rami) Shani, A.B. and Noumair, D.A. (Eds.) <i>Research in Organizational Change and Development</i> (Vol. 29), Emerald Publishing Limited, Leeds, pp. 201-234. <a href="https://doi.org/10.1108/S0897-301620210000029009">https://doi.org/10.1108/S0897-301620210000029009</a></li> </ul>

## 5.10. Electives M9 - M11 - International Studies (Elective at a partner university abroad)

Semester	2
Duration	180 hours workload
Type of course	<p>Elective</p> <p>Students have the opportunity to complete one elective at one of ESB Business School's partner universities (e.g. summer school, winter school, short stay, or online participation). The condition is that it is a course at master's or MBA level and that the content of the course has not been covered by courses at ESB Business School.</p>
How frequently is the elective offered	Annually in summer semester
Admission requirements	Specific requirements depend on the partner university. Students must submit a learning agreement to the MBA academic coordinator prior to enrolling in the course at the partner university. As soon as students receive their grade transcripts, they should submit theses to the respective coordinator.
Level	Master/ MBA
Responsible professor/ coordinator	<p><a href="#">Prof. Dr. Hermann Lassleben</a></p> <p><a href="mailto:hermann.lassleben@reutlingen-university.de">hermann.lassleben@reutlingen-university.de</a></p>
Name(s) of lecturer(s)	Depending on the partner university/ course chosen
Credits (ECTS)	6/90
Total workload and breakdown	180 hours (minimal)
Contact hours per week	Amount of contact hours/ independent study depends on the partner university/ course chosen
Learning outcomes of the elective	<p><b>Professional competencies</b></p> <p>Advanced knowledge in a particular field of international management (depending on chosen course), insight into different university systems</p> <p><b>Methodological competencies</b></p> <p>Advanced methodological competencies in a particular field of international management (depending on chosen course)</p> <p><b>Social competencies</b></p> <p>Advanced communication skills in the language of the host country Advanced intercultural skills</p>

	<b>Personal competencies</b> Development of personality and personal profile through studying abroad, reflection and learning from international experiences
Course-specific contributions to AoL competency goals (CG 2-6)	Depending on the partner university/ course chosen
Content/ indicative syllabus	Depending on the partner university/ course chosen
Teaching methodology	Depending on the partner university/ course chosen
Examination/type of assessment	Depending on the partner university/ course chosen
Weighting of grade within programme	6/66
Indicative reading list	Depending on the partner university/ course chosen

### 5.11. Electives M9 - M11 - Supplementary Elective (2 Electives from MBA Part-Time)

Semester	2
Duration	Depending on courses chosen
Type of course	Elective Before MBA Full-Time (FT) students choose their electives, the MBA FT management team will decide to offer a bundle of two electives (2 * 3 ECTS) from the MBA Part-Time (PT) programme complementary to the electives offered in the MBA FT programme.
How frequently is the elective offered	Depending on offerings of MBA Part-Time per semester
Admission requirements	Requirements depend on MBA Part-Time programme
Level	Master/ MBA
Responsible professor/ coordinator	<a href="#">Prof. Dr. Hermann Lassleben</a> <a href="mailto:hermann.lassleben@reutlingen-university.de">hermann.lassleben@reutlingen-university.de</a>

Name(s) of lecturer(s)	Depending on courses chosen
Credits (ECTS)	6/90
Total workload and breakdown	180 hours (45 hours lecture time, 135 hours independent study)
Contact hours per week	Depending on courses chosen.
Learning outcomes of the elective	<p><b>Professional competencies</b> Advanced knowledge in a particular field of international management (depending on courses)</p> <p><b>Methodological competencies</b> Advanced methodological competencies in a particular field of international management (depending on courses)</p> <p><b>Social competencies</b> Improvement of communication and collaboration skills through interaction with participants from different backgrounds</p> <p><b>Personal competencies</b> Development of personality and personal profile through reflection and learning in a new team setting</p>
Course-specific contributions to AoL competency goals (CG 2-6)	Depending on courses chosen
Content/ indicative syllabus	Depending on courses chosen
Teaching methodology	Depending on courses chosen
Examination/type of assessment	Depending on courses chosen
Weighting of grade within programme	6/66
Indicative reading list	Depending on courses chosen

## 6. Enterprise Project

Module	M13
Semester	3
Duration of module	3 months
Type of module	Core
Courses included in the module	<ul style="list-style-type: none"> <li>• Enterprise Project</li> <li>• Enterprise Project Colloquium</li> </ul>
How frequently is the module offered	3 <sup>rd</sup> semester
Admission requirements	Successful completion of M1-M6
Level	Master/ MBA
Responsible professor/module coordinator	<a href="mailto:hermann.lassleben@reutlingen-university.de">Prof. Dr. Hermann Lassleben</a> <a href="mailto:hermann.lassleben@reutlingen-university.de">hermann.lassleben@reutlingen-university.de</a>
Name(s) of lecturer(s)	Prof. Dr. Hermann Lassleben <a href="mailto:hermann.lassleben@reutlingen-university.de">hermann.lassleben@reutlingen-university.de</a>
Credits (ECTS)	15/90
Total workload and breakdown	450 hours
Learning outcomes of the module	<p><b>Professional competencies</b></p> <p>The Enterprise Project (EP) deepens the understanding of a key international management/ international business problems from an academic as well as from a practical perspective. Students critically reflect on the content and the methodological skills acquired in previous modules and apply, extend and deepen their knowledge on a particular topic from a practical perspective. They conduct a comprehensive and structured review (EP report) of a key international management/ international business problem, integrating theoretical and practical perspectives.</p> <p><b>Methodological competencies</b></p> <p>Students gain exposure to the international management/ business landscape through active participation in real business organisations, teams, and projects.</p>

	<p><b>Social competencies</b></p> <p>Students apply and improve language, communication, and collaboration skills acquired during or prior to the EP experience. International students are exposed to the German/European work culture.</p> <p><b>Personal competencies</b></p> <p>The Enterprise Project (EP) helps students explore new perspectives and areas of interest to make informed choices for future employment. The EP report contributes to the development and refinement of students' writing skills. In the EP colloquium, students are guided to critically reflect on their EP experience, enabling them to consciously identify significant learnings for their future professional endeavours. This provides them with valuable skills, insights, and self-awareness necessary for their continued professional growth and success.</p>
Examination/type of assessment	<p>PA (pass/fail)</p> <p>Students submit an EP report (3,000 to 4,000 words) covering the following elements</p> <ul style="list-style-type: none"> <li>• Presentation of the company or organisation</li> <li>• Presentation of the functional area, in which the EP was conducted</li> <li>• Description of the EP's objectives and milestones</li> <li>• A critical evaluation of the organisation, as well as the completed tasks regarding the EP objectives and milestones</li> <li>• A critical evaluation of the extent to which the learnings received at ESB Business School helped them to carry out the EP (in terms of overall understanding, analytics and methodology)</li> </ul>
Weighting of grade within programme	n/a

## 6.1. Enterprise Project

Course	M13.1
Type of course	Core
Name of lecturer	<a href="#">Prof. Dr. Hermann Lassleben</a> <a href="mailto:hermann.lassleben@reutlingen-university.de">hermann.lassleben@reutlingen-university.de</a>
Learning outcomes	<p><b>Professional competencies</b></p> <p>The Enterprise Project (EP) deepens the understanding of a key international management/international business problems from an academic as well as from a practical perspective. Students critically reflect on the content and the methodological skills acquired in previous modules and apply, extend and deepen their knowledge on a particular topic from a practical perspective. They conduct a comprehensive and structured review (EP</p>

	<p>report) of a key international management/international business problem, integrating theoretical and practical perspectives.</p> <p><b>Methodological competencies</b></p> <p>Students gain exposure to the international management/business landscape through active participation in real business organisations, teams, and projects.</p> <p><b>Social competencies</b></p> <p>Students apply and improve language, communication, and collaboration skills acquired during or prior to the EP experience. International students are exposed to the German/European work culture.</p> <p><b>Personal competencies</b></p> <p>Students explore new perspectives and areas of interest to make informed choices for future employment. The EP report contributes to the development and refinement of students' writing skills.</p>
<p>Course-specific contributions to AoL competency goals (CG 2-6)</p>	<ul style="list-style-type: none"> <li>• CG 2 reinforced: Students experience intercultural differences in a real-life setting and learn to deal with them by applying concepts learned in previous modules.</li> <li>• CG 3 reinforced: Students learn to recognize issues of ethical and social responsibility in everyday workplace interaction.</li> <li>• CG 4 reinforced: Students manage complex tasks and integrate theoretical knowledge and professional experience to generate practical business solutions.</li> <li>• CG 6 reinforced: Students are exposed to and become familiar with contemporary and innovative tools for digital data analysis and digital business management.</li> </ul>
<p>Content/ indicative syllabus</p>	<p>Students apply their knowledge to a specific business situation and gain experience in the practical implementation and application of knowledge and skills acquired in previous modules.</p>
<p>Teaching and learning methodology</p>	<p>The EP must be carried out with or for an international company or organization and can only be completed as a single continuous experience with one company or organisation. The project can take place in all functional areas of the company. Support and guidance will be provided by the company's direct supervisor/team and through support and feedback from faculty members.</p>

## 6.2. Enterprise Project Colloquium

Course	M13.2
Type of course	Core

Name of lecturer	<a href="#">Prof. Dr. Hermann Lassleben</a> <a href="mailto:hermann.lassleben@reutlingen-university.de">hermann.lassleben@reutlingen-university.de</a>
Contact hours per week	2 hours (in form of weekly consultation hours for students before, during and immediately after the EP)
Learning outcomes	<p><b>Professional competencies</b></p> <p>Students gain in-depth expertise in the respective field/industry/domain of their EP.</p> <p><b>Methodological competencies</b></p> <p>Students learn to apply theoretical insights as a means of solving practical international management/ business problems. They gain experience in project management as well as specific tools/ techniques relevant to the particular EP domain.</p> <p><b>Social competencies</b></p> <p>Students learn about and are able to reflect on work practices and work culture in their EP organisation.</p> <p><b>Personal competencies</b></p> <p>Students learn to work with colleagues from different cultural, educational, technical or other backgrounds to solve relevant problems or design beneficial solutions.</p>
Course-specific contributions to AoL competency goals (CG 2-6)	<ul style="list-style-type: none"> <li>• CG 2 reinforced: Module leader facilitates guidance for students in addressing intercultural challenges upon request.</li> <li>• CG 3 reinforced: Module leader provides guidance to students in navigating ethical challenges upon request.</li> <li>• CG 4 reinforced: Module leader or faculty members provide guidance to students on applying and expanding their theoretical knowledge acquired during their studies to effectively solve international management/ business or concrete EP problems.</li> </ul>
Content/ indicative syllabus	<ul style="list-style-type: none"> <li>• Knowledge of working procedures in a business environment. Independent execution of international management/ business projects and tasks</li> <li>• Content varies depending on the organisation and functional area in which the EP is conducted</li> </ul>
Teaching and learning methodology	Providing ongoing support and feedback to guide students through the EP and reporting process
Indicative reading list	Upon request, students will receive literature references for the specific industry/ functional area/ EP from the module leader or a qualified faculty member.

## 7. Master's Thesis

Module	M14
Semester	3
Duration of module	3 months
Type of module	Core
How frequently is the module offered	3 <sup>rd</sup> semester
Admission requirements	Successful completion of M1-M6
Level	Master/ MBA
Responsible professor/module coordinator	<p><a href="mailto:hermann.lassleben@reutlingen-university.de">Prof. Dr. Hermann Lassleben</a> <a href="mailto:hermann.lassleben@reutlingen-university.de">hermann.lassleben@reutlingen-university.de</a></p> <p>The first supervisor should be a professor at ESB Business School.</p> <p>The second supervisor should be a professor at ESB Business School or a company representative, who must be approved by the MBA examinations board.</p>
Credits (ECTS)	15/90
Total workload and breakdown	450 hours
Learning outcomes of the module	<p><b>Professional competencies</b> Students integrate acquired management knowledge and skills while working independently and in depth on an international business problem/topic. They enhance their ability to solve complex international management problems. They learn to apply appropriate methodologies and develop viable solutions. They understand key concepts and techniques and develop expertise in the topic area of the master's thesis.</p> <p><b>Methodological competencies</b> Students acquire the ability to identify and develop a feasible research aim, ground it in the discipline of management, source and review relevant literature and appropriate theories, develop hypotheses or research questions, select appropriate methods and collect data/ source material to conduct analyses, propose solutions and make critical evaluations, identify implications of research findings, apply academic writing, and present a complex topic in well-structured, clear, and correct language within given constraints.</p> <p><b>Social competencies</b> Students improve their ability to reflect on the scientific and practical relevance of proposed solutions, identify limitations and ethical issues,</p>

	<p>understand how to write up research findings to meet the needs of target audiences, develop the ability to contribute actively to the scientific community, and learn to assess when and how support from a supervisor is needed.</p> <p><b>Personal competencies</b></p> <p>Students improve their independent problem solving, academic writing and argumentation skills, and the ability to draw conclusions. They learn to manage their time and workload, to work effectively and efficiently, to identify their needs for further knowledge, and to critically evaluate and manage their own research process.</p>
<p>Course-specific contributions to AoL competency goals (CG 2-6)</p>	<ul style="list-style-type: none"> <li>• CG 2 introduced: Depending on the topic, students will demonstrate understanding of cultural issues in a business context throughout the design and research process.</li> <li>• CG 3 introduced: The social responsibility and ethical implications of the recommendations made in the thesis are discussed. Students adhere to the principles of research ethics, which is also included in the assessment.</li> <li>• <b>CG 4 assessed:</b> The basic idea of the thesis is that students select and apply appropriate research methods to solve business problems independently, supported by feedback and guidance from their supervisor. Ideally, the work will be done in collaboration with a company working on a real project. The thesis is subject to the Assurance of Learning (AoL) process.</li> <li>• CG 6 introduced: Students use digital methods to collect (e.g. online surveys) and analyse quantitative (SPSS) and qualitative (MaxQDA) data.</li> </ul>
<p>Examination/type of assessment</p>	<p>Master's Thesis + Oral Exam (MP) (30 min.)</p> <p>The module examination consists of two parts: the Master's Thesis (MT) and the Master's Colloquium (MP). Students must obtain a pass grade of 4.0 or above in both components to pass the module.</p> <p>The Master's Thesis (MT) is graded independently by two supervisors according to the Thesis Guidelines. The grade for the Master's Thesis (MT) is the collective average of the grades (50/50) of both supervisors.</p> <p>In the colloquium (30 minutes), students present the essence of their master's thesis (~15 minutes) to both supervisors and answer their respective questions (~15 minutes). The grade for the colloquium (MP) is the average (50/50) of both supervisors' grades.</p> <p>The module grade for the Master's Thesis module is made up of two thirds of the Master's Thesis (MT) grade and one third of the Master's Colloquium (MP) grade.</p>
<p>Weighting of grade within programme</p>	<p>15/66</p>
